

OTGON BAATAR

Summary

Highly skilled Full Stack Developer with 2 years of experience in designing, developing, and deploying scalable web applications. Proficient in modern technologies like Next.js, Node.js, Express, React, MongoDB, and PostgreSQL, with a strong focus on clean, maintainable code and high-quality solutions. Experienced in building RESTful APIs and delivering responsive UI designs using Tailwind CSS. Dedicated to continuous learning, exploring emerging technologies, and creating innovative solutions that add real value. Seeking opportunities to contribute to impactful projects while growing professionally in a collaborative environment.

Work Experience

Software Engineer, Smart Software Group

June 2022 - June 2024

- Actively contributed to the development and enhancement of a POS (Point of Sale) system serving 300-350 active users, improving operational efficiency and user experience.
- Utilized C#, .NET, ASP.NET, and ASP.NET MVC architecture to build robust and scalable backend solutions, ensuring high system performance and reliability.
- Developed frontend components using DevExpress and WinForms, creating user-friendly interfaces with seamless functionality for users.
- Managed and optimized MSSQL databases, ensuring smooth data operations, integrity, and security for thousands of transactions.
- Collaborated closely with cross-functional teams to define technical requirements, achieving key milestones for major products on time within an Agile environment.
- Focused on continuous improvement through automated testing, code reviews, and optimization, which resulted in a 20% reduction in post-deployment bugs and enhanced code quality.
